

## Youth Strengthening Initiative

/ Summary of Program Activities /

The project has been implemented within the framework of the grant program supporting the implementation of Nor Geghi Youth and Community Initiatives Clubs Annual Action Plan. The aim of the project was to promote and ensure women's participation in the political, economic, cultural and other areas of Nor-Geghi community social life.

The project consisted of 2 parts. In the first part a round table discussion took place among the community active female leaders and adolescent girls and students. The following topics discussed: "Woman is able to occupy a high post and to carry out her mission with honor.", "Women holding a post are more cautious and disciplined," "One must commit to one direction to achieve a result", "If there were not women man would turn a house into a cave too," "Fatal Women" and other subtopics.

There was also a heated discussion on "What role do men reserve to women; where do they see a woman's mission at home together with her husband and family, or in an active social life holding state positions.

Women leaders presented the youth the way they passed through, their experience, knowledge and skills.

The second part of the project was devoted to cultural performances which were joined by other members of the community.

The event enjoyed a great reputation in the community. It managed to bring together the representatives of various segments of the community and to create grounds for new cooperation.
